

# Liturgy and Social Media

## Shared action and movement

### Liturgy

#### Gather

We gather and greet one another in order to share and engage in worship. We become a community in Christ, bound by our shared action and faith.

### Social Media

#### Join

We sign up or join in order to become part of a community that interacts, converses and shares ideas

#### Word

We hear God's word given to us and for us. We are transformed for life in the community and given God's Gospel promises.

#### Meal

Once we have heard the word, we respond in faith, we sing, confess our faith, pray and share in the Lord's Supper

#### Sending

Once we have heard the word and been fed with living bread, we are sent out to proclaim the good news in the world.

#### Read

The foundation of social media is reading and listening. Engaging with what others have posted and shared.

#### Post

Once we have listened to and heard the stories of our community, we share our own stories, post our own content, give something of ourselves to our community.

#### Share

When we hear stories or ideas that we want to pass on, we "like", "favourite", "share", "re-tweet" so that what we have first heard can be shared with our community.
